

## Additional US Catalog Corrections

Joe Laura, Jr (#1238)

The correct spelling for the user of perfins pattern D4 is "Denney" rather than the entry on page 117 of the *Catalog of United States Perfins* as may be noted from the cover shown below.

The envelope addressed to the Norton Company was mailed using perfins pattern M23. This will be used to correct the spelling of the user listed in the catalog. The correct spelling of the company name is Melchior, Armstrong & Dessau who were located at 116 Broad Street, New York, NY.

Previous unidentified, the back cover shows a positive identification for the "MTM" of perfins pattern M265. The Minneapolis Threshing Machine Company located in Hopkins, Minnesota posted this previously unreported "Black Harding" on November 7, 1923.

The US Catalog lists the user of perfins pattern P78 as Peck, Stowe & Wilcox Company. The cover shown on the back cover has a corner card of PEXTO, 217-313 Center Street, Southington, Connecticut. This seems a more logical main entry for a perfins which reads "PEXTO".
